# Capability Statement

Protecting and  
Enhancing Assets with  
Expertise and Excellence

# About ICC

**ICC Industrial Corrosion Control PTY LTD**  
is a leading provider of Abrasive Sand  
Blasting and protective coatings  
solutions

We are specialising in Industrial Corrosion Control and NACE Certified Surface Protective Coatings. With extensive experience across diverse sectors, including renewable energy, Australian resources, major project infrastructure, and more.

We deliver unparalleled services tailored to meet the complex needs of our clients. Our commitment to quality, safety, and environmental standards, combined with our skilled workforce, ensures exceptional outcomes for every project.

## Industries

- Renewable Energy
- Australian Resource Sector
- Major Project Infrastructure
- Manufacturing
- Structural Steel Engineering
- Mining
- Marine
- Construction
- Oil and Gas (Onshore and Offshore Shutdowns)
- Major Maintenance and Campaigns

# Our Advantages

---

## Nationwide Site Services

Our reach ensures reliable and responsive service across Australia.

## High and Low Temperature Steel Applications

Expertise in managing a range of temperature conditions for steel protection.

## NACE Certified inspections

We adapt our services to meet the unique requirements of each project and client.

## Tailored Solutions

Expert inspections ensuring superior surface protection and corrosion control.

## Strong Communicative Relationships

We focus on understanding and addressing client needs to achieve optimal outcomes.

# Core Competencies

## Abrasive Blasting

Efficient and thorough surface preparation to enhance coating adhesion and asset longevity.

## Specialised Coating Applications

Including thermal spray coatings, epoxy, polyurethane, acrylics, cementitious coatings, intumescent coatings (fireproofing), and polyurea coatings.

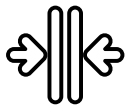

## Asset Integrity Remediation

Advanced treatments for corrosion, including under insulation.

## Pipeline Applications

Fusion bonded epoxy (FBE) for field joints.

## Internal Linings

Protection and enhancement of internal surfaces.

## High Pressure Water Washing

Effective cleaning and preparation for subsequent treatments.

## Encapsulations

ESafe and effective containment during blasting and coating processes.

## NACE Certified Inspections and Reports

Comprehensive inspections and documentation for superior quality control.

# Our Commitment

---

We are committed to excellence, delivering superior asset protection and durability through expert solutions. Our team specialises in protective coatings and asset management, ensuring optimal performance and longevity.

We prioritise open communication and collaboration to build strong client relationships and tailor solutions to their specific needs. Adhering to strict quality, environmental, and safety protocols, our certified and licensed workforce upholds the highest industry standards.

The ICC logo is a circular emblem with a brown background and a white border. The letters "ICC" are written in a bold, white, sans-serif font in the center of the circle.

## Quality Assurance

---

Committed to excellence in every project, we ensure precision, safety, and compliance at every stage. Our rigorous quality management systems guarantee that all work meets industry standards and client expectations.

ICC Industrial Corrosion Control PTY LTD is dedicated to maintaining the highest standards of quality, safety, and environmental management. Our systems are designed to ensure that all projects are executed with precision, adhering to the stringent requirements of industry regulations and client specifications.
